Practical Neuro- Ophthalmology 2016

An interactive course for Ophthalmologists and Neurologists

3rd update meeting of the European Neuro-
Ophthalmological Society (EUNOS)

Thursday/Friday, June 23/24, 2016

Dear Colleagues

Welcome to the 3rd Interactive Course in Practical Neuro-Ophthalmology at Schloss Au (Au Castle) near Zurich, Switzerland. This course will be accredited by the European Neuro-Ophthalmological Society (EUNOS).

We are very fortunate that Professor Jonathan Trobe from the University of Michigan agreed to give this course for the third time. He has been touring the world with his innovative teaching course for several years with great success.

This year, we are proud to welcome Professor Michael Halmagyi from the University of Sydney as a special guest. He is a world-renowned Neuro-Otologist who popularized the head impulse test.

The course is designed for practicing Ophthalmologists and Neurologists at all levels. It will cover the most relevant clinical topics of Neuro-Ophthalmology, with a spotlight on Neuro-Otology in four blocks. Each topic will first be introduced in a plenary session and then further elaborated in small groups based on interactive clinical case discussions.

We are looking forward to another inspiring teaching session in a unique atmosphere at Schloss Au.

Sincerely,

Prof. Klara Landau, MD FEBO

Location

The "Tagungszentrum Schloss Au" is located in an idyllic nature reserve 30 min outside Zurich by train. The S-Bahn S8 leaves every 30 min from "Zürich HB" to "Au (ZH)", a 10 min walk takes you to the castle. Parking in the area is strictly limited. After the first day, a boat will take you from the "Schiffstation Halbinsel Au" directly to the social dinner in Zurich.

Dr. Jonathan D. Trobe is Professor for both Ophthalmology and Neurology at the University of Michigan. As an author of several textbooks and long-standing Editor of the "Journal of Neuro-Ophthalmology", he is a renowned expert in the field with an excellent reputation as a teacher.

Dr. G. Michael Halmagyi is Clinical Professor of Neurology at the Royal Prince Alfred Hospital in Sydney. He is a world-leading expert in Neuro-Otology and Neuro-Ophthalmology and probably most famous for the head impulse test as a clinical indicator of vestibular loss.
